All rails are 1 1/4" x 5", which are thicker and more durable than most competitor models. Our beds are tested to hold up to 400 pounds. All of our beds meet or exceed all safety standards of the Consumer Product Safety Commission.

Each box is labeled with item number and carton contents.

Beds are easily assembled with our bolt and cap nut hardware. A hex key is provided.

Each drawer features solid wood construction and are mounted on easy rolling European-style metal drawer glides, which allow for an easy opening and closing.

A metal bracket is used to connect the rails to the HB/FB. The rails have a 1/4" wooden cleat used to support the mattress foundation. The cleat is glued and screwed to the rail for extra strength.
