

Prowler Overhead Speaker

Hardware List

| Qty | Item |
|-----|----------------------|
| 4 | 1/4" x 1" Screws |
| 4 | 1/4" Lock nuts |
| 4 | 1/4" Washers |
| 6 | 3/4" wood screws |
| 4 | 1" Rubberized Clamps |
| 4 | 1/2" Spacers |

These are guidelines not step by step.

1. The mounting plate goes on the bottom of the support bars on the roll cage.
2. The spacer goes between the tabs on the clamps
3. One of the tabs on each clamp will have to bent slightly
4. The six pointed wood screws are screwed in the top of the speaker thru the holes in the mounting plate to hold the speaker to the mounting plate.
5. The wiring plug goes thru the large hole in the mounting plate.
6. The 1/4" screws go from the bottom of the mounting plate thru the mounting clamp, spacer then the other side of the clamp. Place a washer on the screw before you push it thru the plate.
7. As they say a picture is worth a 100 words, look at the two pictures below.
