PAK-LITE™ SUPER GLOW
MSRP \$26.99

"I'm a repeat customer, still using the same battery after 4 hurricanes in two years, over 30+ days total without electricity..Thanks!" Charles - FL

"In the past year of using your light, I am still amazed and impressed with how handy, sturdy and clever they are... still with the same battery... it has gotten very wet, in saltwater, and still works. Thanks for making such a great product"...G. Jones/ Senior Editor "Blue Water Sailing Magazine"

Featuring

Small

About 1/2 in. longer than a 9v battery. The Pak-Lite cap is not much larger than a quarter.

Long Battery Life

Lithium Batteries can power a Pak-Lite for up to 1,200 hrs. on low and 80 hrs. at full brightness.

Super Bright LEDs

shine for over 100,000 hrs. so you never have to replace a bulb. Only the highest quality LEDs are used in the Pak-Lite which yields more light for the amount of energy used.

Easy Battery Change

Pak-Lite simply snaps to the top of any 9-volt battery making it into an instant flashlight.

Accessories

Belt Case

Headband Holder

Variety of Models

Multicolored Pak-Lites and various models available.

HISTORY ABOUT PAK-LITE

The Pak-Lite LED was designed and used originally for hiking the 2600+ mile Pacific Crest Trail (PCT) from Mexico to Canada. After other hikers liked it so well, the Henry family began manufacturing this little flashlight in the backwoods of Southern Oregon. The Pak-Lite SUPERS are currently assembled here with the highest quality parts mostly from domestic sources at our Oregon plant powered by hydro-electric and solar panels. Since it's creation in 1999, the Pak-Lite has served as a reliable light source for backpackers, hikers, sailors, and even the U.S Air Force Special Operations in Iraq.

Testimonies:

"WOW! Great idea! Great design! Outstanding product. I bought 7 ...they're awesome!! Thank you!" Stephen - NY

"I was introduced to Pak-Lite flashlights. What a jewel! I gave one to each of the four instructors that work for me and the feedback has been overwhelmingly positive. We now each carry one in our personal survival kits" - Peter Kummerfeldt - U.S. Air Force Survival Instructor
