Keeping the IRS Off Your Back

“HELP! I got an IRS notice, now what?”
“The IRS is trying to levy my wages and bank account, what do I do?”

When the IRS is breathing down your neck and threatening you, it's no time to hide or ignore the problem. This is the time to take decisive action to avoid getting into a deeper mess, because once they're on your track, they won't give up. Penalties and interest mount up daily, whether you take action or not. The sooner you can get the situation resolved, the better for your bank account – and your peace of mind.

Now is the time to call Robert or Erika at ERK Financial Consultants - we know our way around the intricacies of IRS regulations. We talk to the IRS for you, so you don't have to.

Because there are so many ways to get into trouble, we have devoted an extra page to each of the most common problems. Please click on the links below for more information on the issue you are facing.

Then call us for a free consultation on your situation. Whether you are dealing with the IRS, the Franchise Tax Board, or local taxing authorities, it's never too late to take action.

And why wait any longer to regain your peace of mind?

We Do It Right First Time!

Preparing your taxes yourself for the IRS is frustrating, not to mention full of pitfalls. Our income tax laws are complex and it's easy to overlook valid deductions and credits or – worse - miss a critical filing deadline. Even if you want to wrestle with over 50,000 pages of the tax code yourself, it's easy to misinterpret individual points because the regulations are so complicated.

Computer programs can help but they can't ask the nuanced questions, probe deeper into your information at exactly the right places to extract the most savings for your particular situation, or point out red flags that might trigger an IRS audit.

Putting the preparation of your tax returns in the hands of the experienced professionals at ERK Financial Consultants lifts the load off your shoulders, removes any worries about accuracy and gives you peace of mind. And you save time that you can use to focus on what you enjoy.

We handle everything, from updating your books for the year to electronic filing with the IRS so that you get a faster refund!

Let us make sure nothing is left out and you take advantage of all possible deductions so that you reduce the amount you pay to the IRS (which, by the way, is not tax deductible) and increase your net worth.

Simply fill out the form below and we'll get in touch with you to talk about what you need.

The Path to Reduced Taxes and More Profits

Tax planning equals tax savings for you. If you find yourself asking “Why do I have to pay so much money in taxes?” or “Why is my business not doing well?” then it's time for us to talk. And the sooner we talk, the sooner you will see a difference in your finances and the more cost effective it will be.

Of course you want to pay the smallest amount possible of tax possible. Who wouldn't? Our job as experienced professionals is to make sure you keep more of your profits to grow your company and enjoy life. It's possible with tax planning. We sit down with you on a quarterly or semiannual basis to review your revenue and expenses, and plan a tax savings strategy that takes advantage of all the ways you can reduce the amount you pay to the IRS.

There are more perfectly legal ways to reduce taxes than we can list here. But rest assured that we are familiar with all of them and we dig deep

to find everything we can use for your specific situation. We take a close look at potential deductions to limit your tax liability in the coming year. We take all possible steps to reduce your taxes on your estate, on your investments, on your gifts and on your retirement distributions.

But there's more to business than making sure your figures are accurate. With extensive knowledge in business development and marketing, we help you come up with business and marketing strategies that will keep your company growing or turn it around if there are problems.

Did you know that there are penalties and consequences if you don't choose the right business entity at the start; if you have the wrong kind of shareholders for your "S" corporation; if you report and collect taxes in the wrong time period? Those are just a few of the business minefields we help you step around...there are many more.

Simply fill out the form below for a free consultation to review your situation and get a sheet of commonly overlooked deductions.
