

Bio Ballance, pH

Ingredients:

DI Water
Sodium Metasilicate
Non Ionic Surfactant
Calcium Chloride
Magnesium Sulfate

Directions: Shake well before using. Mix 1 ounce of Catalyst Water Concentrate to 1 gallon of distilled water. This 8 ounce bottle of concentrate will make 8 gallons.

Caution: Contents may cause mild irritation when in contact with eyes if used in concentrated form. Buyer agrees that the distributor shall not be liable for any damages incurred from the use of this product. This product contains wetting-agent properties. If using medication, consult your physician.

This product is not intended to diagnose, treat, cure, or prevent any disease. These statements have not been evaluated by the FDA (Food & Drug Administration).
