

Dental Hygiene Program Course Equivalencies

The courses listed in the table below are accepted at Utah College of Dental Hygiene (UCDH) at Careers Unlimited. Each course fulfills the requirements (content, scope, depth, and breadth) described in the “**UCDH General Education and Prerequisite Requirements List.**” Any course **not** listed on the table below that you wish to be considered for transfer credit to fulfill UCDH program requirements will need to be submitted to the Transfer Credit Office at UCDH. This office will consider each request for transfer credit on a “case by case” basis. As a general rule, if a course is accepted by any ADA Accredited Dental Hygiene Program in the United States there is a high probability of having that course transfer to UCDH provided the course meets the course title/description on this page, is a college level course, and is three (3) or more college credit hours in length.

If you are unsure that a course will transfer you may submit any course to the UCDH Transfer Credit Office for consideration by:

1. Providing the course name, call number, credit hours, and course description (which should be copied directly from the College Catalog) where the course was taken along with a College/University Department contact phone number.
2. Submit an Official College Transcript (from all Colleges and Universities attended) to UCDH which includes all course numbers, credit hours awarded, grades received, and overall cumulative GPA. All items should be sent to the UCDH Records Office at: 1176 South 1480 West Orem, UT 84058. Phone (801) 426-8234.
