

## The Philadelphia League Welcomes the World

The International Visitors Council (IVC) hosts international visitors who are traveling in the United States under the auspices of the State Department. When these visitors, mostly government officials, are interested in increasing the role of citizens in their governments, IVC calls upon the League.

During the month of April two groups and

their escorts were entertained in the League office.

The first group included three gentleman from Uganda – a mayor, a chairman of a local council, and a chief administrator of a district local government.

Three gentleman from Romania were in the second group – an assistant to a mayor, the

program coordinator for the Association of Municipalities, and an expert on local and regional government development.

Please call the League office at (215)829-9495 if you would be interested in participating in this most interesting project.
