“Player Handicap Audits”

If you believe a player on another team *or* your own team has a handicap rating that is *either* "too high" or "too low" you should submit an audit to have that player reviewed.

Fill out the Player Audit info at the bottom of this form. Return it in your weekly packet or fax or e-mail it to your league rep or the league office. A local audit will be done first to determine if a more in-depth look from corporate in Virginia is required. If they determine the need for a H/C change, it will be done. Due to time lines and various constraints, it could take two weeks before audits are completed.

We are happy to review any player and encourage “justifiable” audits. Our objective is to make the League as fair as possible for everyone. If you have questions regarding handicaps or scoring, call the league office @ 602-268-6067 or e-mail at robertontap@yahoo.com. We, unfortunately, don’t have time to call back on every audit; however, if you include your e-mail address every attempt will be made to communicate the outcome to you.
