

Give-a-Book program

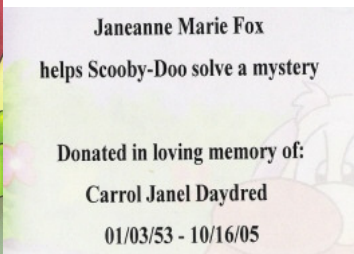

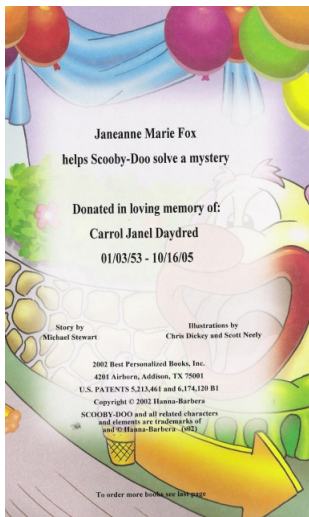

personalized books,
crafts & gifts

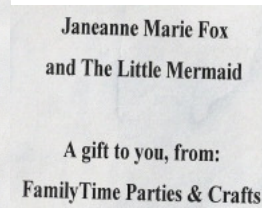

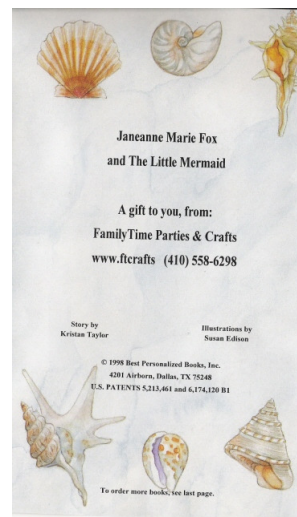

The Soulful Creations "Give-a-Book" program aims to encourage children to get excited about reading at an early age. Our hard-cover, high-quality personalized children's books are full of color illustrations.

The special recipient will become the main character of a personalized and unique story. Each book will include the name of the sponsored child throughout the story. These keepsake books will be read over and over again.

A dedication from the sponsor will be printed on the first page of each book. The dedication page will remind mom and dad of the sponsors' contribution to the community and can also serve to honor the memory of someone special.
