

Walter C. Simmons

Portland, Maine

I took students from Seattle and Tacoma Washington to Chimaltenango for a work project in the summer of 1977, after the 1976 earthquake. Later, I served on the Behrhorst Clinic Foundation board for five years in the 80's.

Carroll was a model for caring for people on their terms and a great inspiration for me and I continue to do development work the way Doc did it as I went about my ministry in the Episcopal church, especially inner city ministry.
