**Scott County SharePoint Implementation Q&A**

*Kevin Heise, Scott County IT Application Services Manager*

Quick show-n-tell overview of core regions of Scott County's SharePoint implementation including: Intranet, Internet, Extranet, My Sites, and Business Owner Site Management. The focus of the presentation is to field questions about hurdles, solutions to issues, general real-world situations to help you think about where SharePoint can work in your county environment. Kevin has implemented a large percentage of the SharePoint structure presented. He continues to make architectural and solution decisions to further Scott County's adoption of SharePoint by solving real business problems and leveraging SharePoint to increase productivity. As manager of the Scott County Application Team, Kevin will have access to team members during the meeting for any additional perspectives on the solutions presented.
