I have spoken to Steve Taff regarding the CPI index and it's future. He states that it was designed to be self sufficient once they had it set up and it has been fully set up and implemented and recognized and accepted by the NRCS. No one except possibly Dodge County has implemented it yet but he stated it will begin to be reported on CRV's (just one more acronym and I will be needing that CPR) beginning soon. That's all I know for now. Looks like CPI is viable for now and into the foreseeable future.
