COMPANY OVERVIEW

Endurance, Inc is the exclusive manufacturer of Endurance Fiber Application Systems. Endurance systems are designed by experienced professionals to effectively apply blown and sprayed residential and commercial insulating, fire-stopping, and noise dampening fiber materials.

Endurance, Inc is a subsidiary of Edge Manufacturing, a metal and plastic components manufacturer that operates out of two locations in Indiana. Edge Manufacturing services leading automotive companies including Ford, General Motors, and Honda. Edge Manufacturing also manufactures parts for: race cars, concrete trucks, farming equipment, insulation manufacturing equipment, HVAC industry, and industrial ovens.

Endurance, Inc's design and engineering team has over 75 years of combined experience in the fiber application industry and are continuously developing new and exciting features to revolutionize fiber application concepts. Endurance Fiber Application Systems are highlighted by performance and efficiency enhancing exclusive features that are setting a new standard of fiber application. Endurance's design and engineering team is capable of designing and manufacturing special purpose fiber application equipment and accessories to meet the requirements of a wide variety of industries. Endurance offers private label manufacturing to support insulation manufacturers that are exploring new products requiring special equipment or have an interest in improving their customer's insulation application experience.

Whether you are just starting out in the insulation business or have years of experience, we encourage you to take advantage of the knowledge and expertise that Endurance has to offer.

PRODUCTS AND SERVICES PROVIDED

Insulation Application Machines

Endurance manufactures insulation application machines equipped with exclusive patented technology. Highlighted by; an unmatched conveying system that allows for a HUGE hopper capacity, an air system that self-maintains a consistent feed rate with an increased output, a drive-shock dampening airlock to increase life of drive system components, and an easily integrated reclaim vacuum system with no air escape.

Insulation Application Accessories

Endurance has designed a line of application accessories to resolve everyday nuisances that plague your applicators, improve job-site conditions to reduce job time, and improve the quality of work.

Application Machine Improvement Services

Do you have retired or poor performing machines that are creating constant downtime? Endurance services range from repairing to restoring your old application machines to continue their "return-on-investment" and make your business more profitable. Performance enhancing features can be added to certain models of machines. **ANY MACHINE, ANY SIZE!**

Brands Serviced Include:

- ▶ Unisul
- ▶ Meyer
- ▶ Capitol
- ▶ Krendl

Contract Manufacturing/Brand Naming

CAPABILITIES:

- ▶ Laser
- ▶ Break Press
- ▶ CNC Routing
- ▶ Welding
- ▶ Shearing
- ▶ Punch Press
- ▶ Rolling
- ▶ Lathing
- ▶ Milling
- ▶ Drilling

With a full line of manufacturing equipment, Endurance can manufacture parts and equipment with speed and ease and significantly cut your costs. An experienced, professional production team can fabricate and assemble your product to meet your high-quality demands. Our experienced staff can offer exclusive technology to your product with research and development to meet your final products performance standards.
