

Technology Improvement and Adoption Programme (**TIA**)

Technology Improvement and Adoption Needs

- Is your company facing a roadblock because of backward technology that can't keep up with your business volume and operations?
- Desire to enter the aerospace industry but need to upgrade your technologies to meet stringent requirements of the industry?
- Are you interested in lean management but don't know how or what to implement?
- AAIS will walk with you on this journey, and support you with a development and incentives package known as TIA.

What is TIA?

- TIA is a development and incentives platform that will assist you via a three-pronged enabling process:
 - Initial technology diagnostics
 - Consultancy to identify technology required to plug your company's gaps
 - Final implementation of technology required in your company

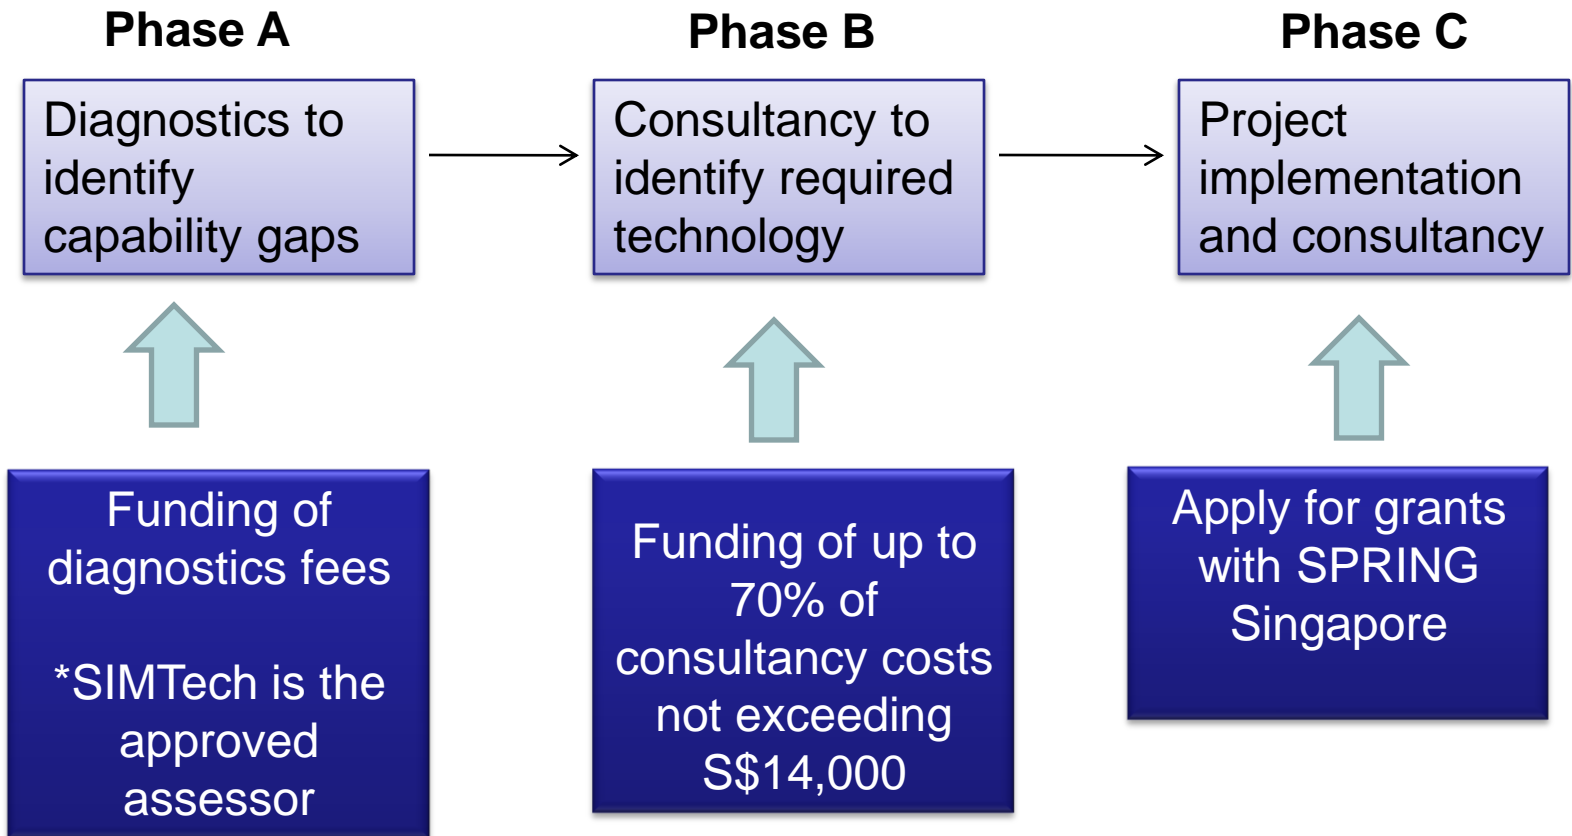

How can AAIS help?

- AAIS Officer to assist you at every stage of the journey
- Partnership with best-in-class consultants and technology vendors to help you make the right choice
- Government funding at each of the three stages

The TIA Funding Scheme

* AAIS Application fee of S\$350 applies

Funding provided by:

SPRING
singapore
Enabling Enterprise

Notes:

- 1) At Phase A, AAIS diagnostics toolkit will be utilized.
- 2) Funding is up to 70% for all cases; companies will be notified of funding rate within one week of AAIS' receipt of the application forms.
- 3) Application forms must be received before commencement of any work.
