Join from PC, Mac, Tablet or Smartphone

Click on the session link that is sent to you through a calendar invite or email

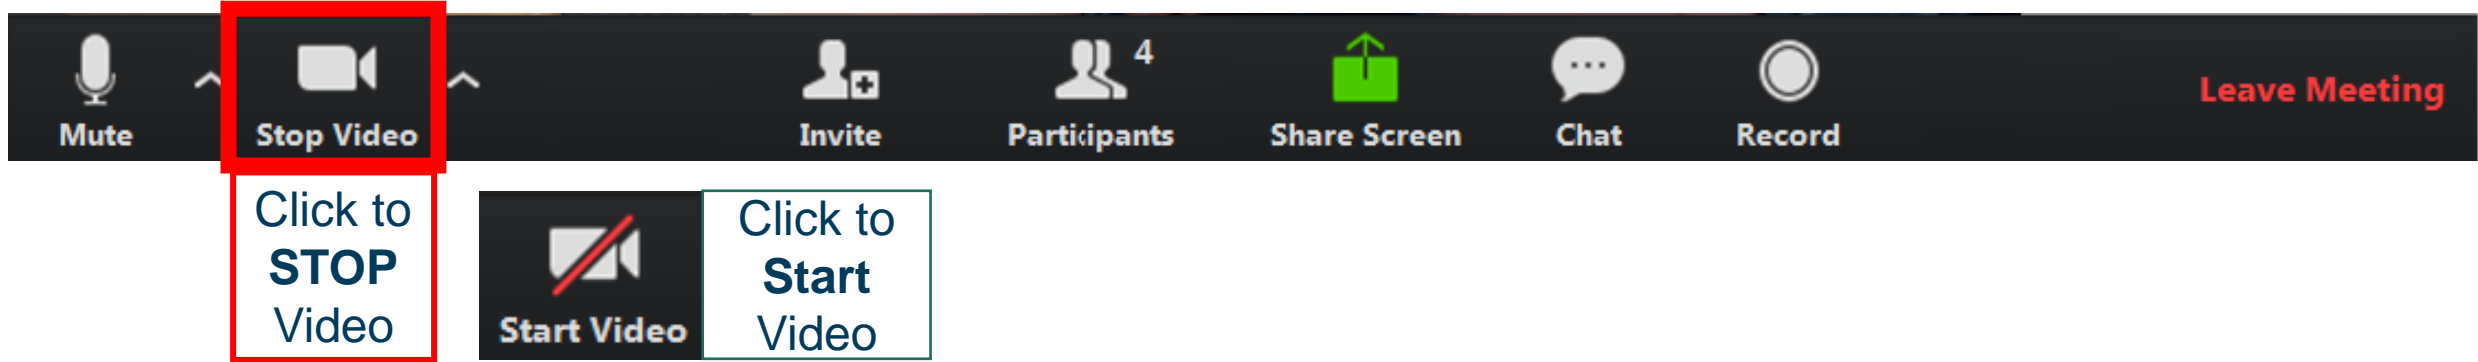

While waiting for the session to begin,
test your speakers and volume using the **Test Computer Audio** button

Test Computer Audio

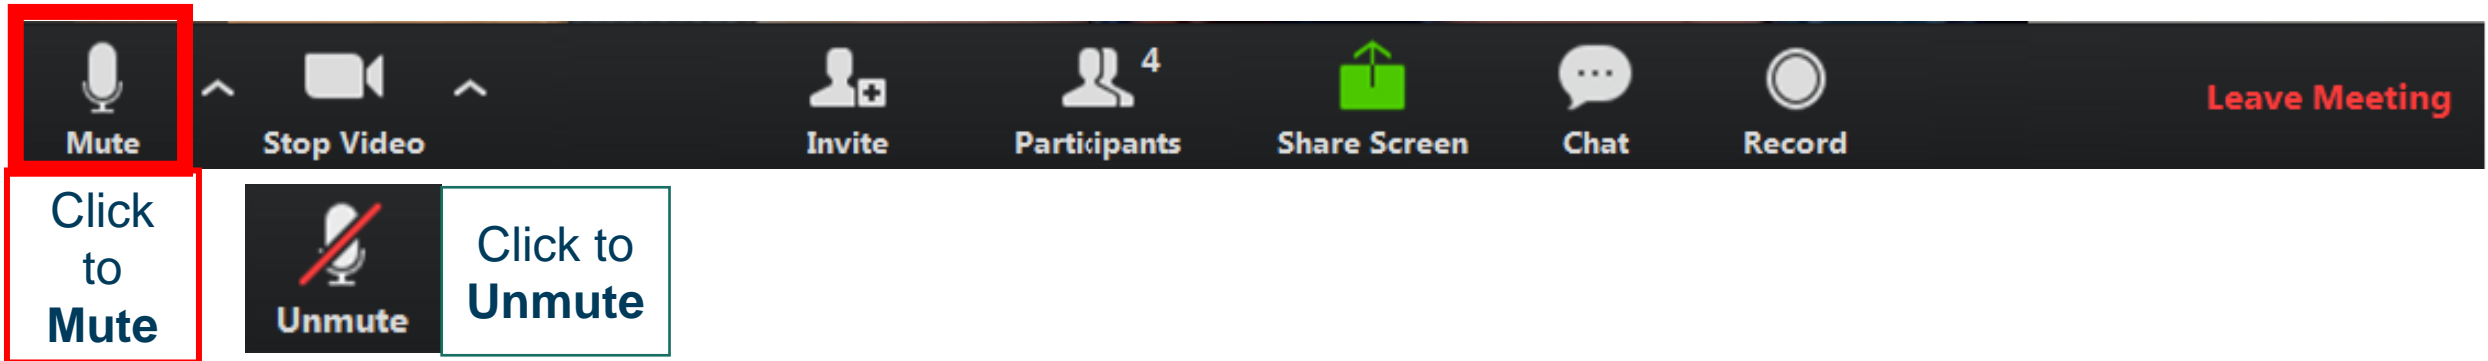

VIDEO

Video is preferred

AUDIO

Mute is preferred if not talking

Speaker View vs. Gallery View

Speaker View

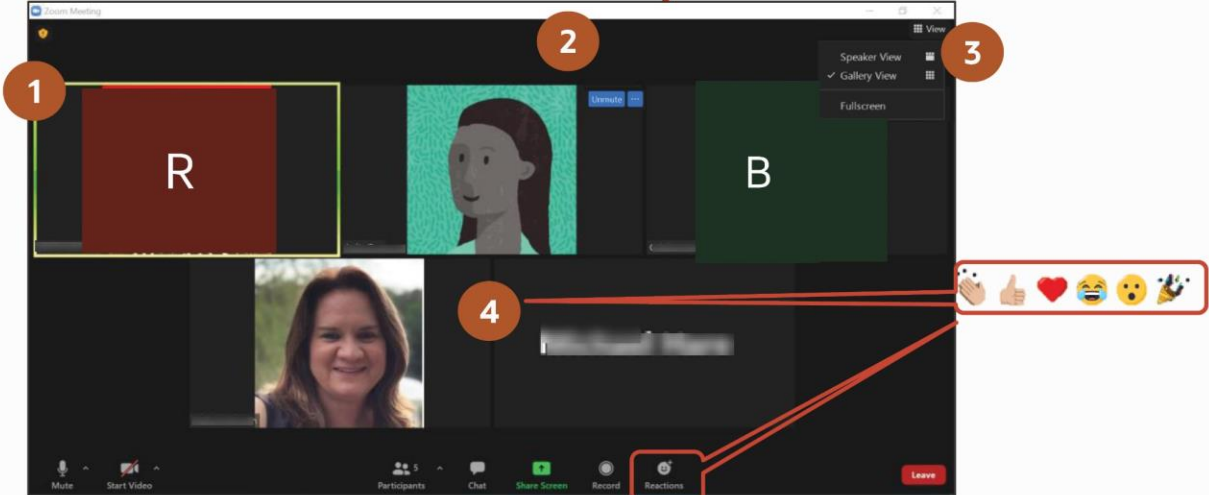

The person speaking will take “center stage”

Full screen

Minimize screen

Gallery View

- 1 A yellow outline around the picture/video/name indicates the person currently speaking
- 2 Click on the ellipses (...) for more options, such as unmute or to rename yourself
- 3 Toggle between Speaker View and Gallery View
- 4 Reactions will display at the top left corner

Zoom Session

1 Mute/Unmute

Mute or unmute yourself during the session and select microphone.

TIP Temporarily unmute yourself: Press+hold your spacebar down to talk (PTT=Push To Talk)

2 Start Video

Start Video to share your camera (use either laptop camera or a camera attached to your computer)

3 Participant

Used to view meeting participants

4 Chat

Use to send chat messages to participants or presenter/host.

5 Share Screen

Used to share your screen or application during session

- Click on Share Screen and select the screen (if you have multiple screens) or application to share
- Remember to click Share (bottom right) to complete the share

6 Meeting Details

Displays details of the session

7 Reactions

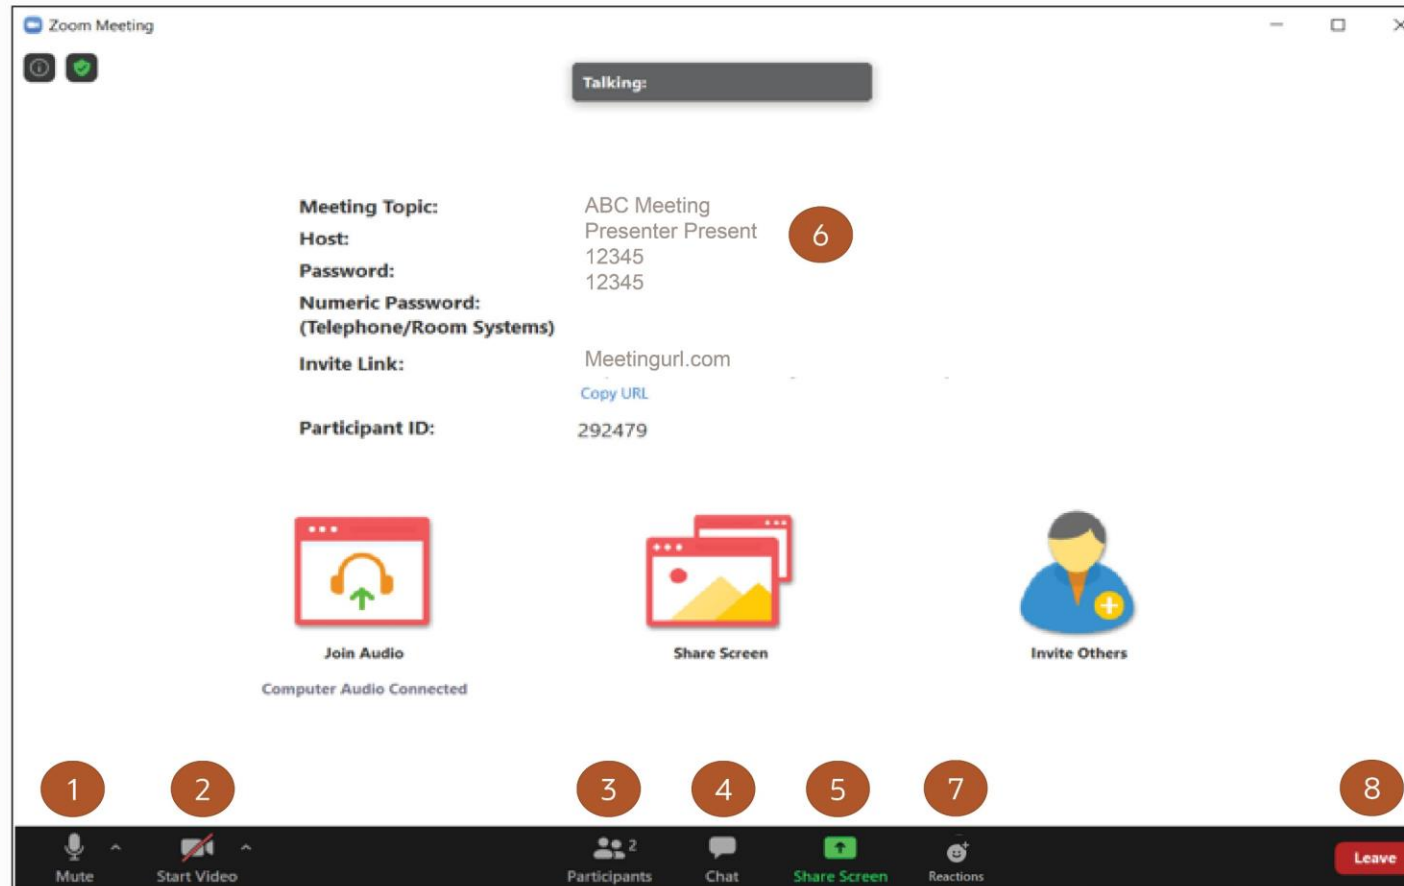

The host would love to know your thoughts, so feel free to use any of the reactions below

8 Leave

Leave the meeting

NOTE: Should you return, you will not be able to re-join the session until admitted by the Host

Participants Panel

The (Host) will be located at the top of the list and participants listed alphabetically, until they unmute and speak, or share their screen

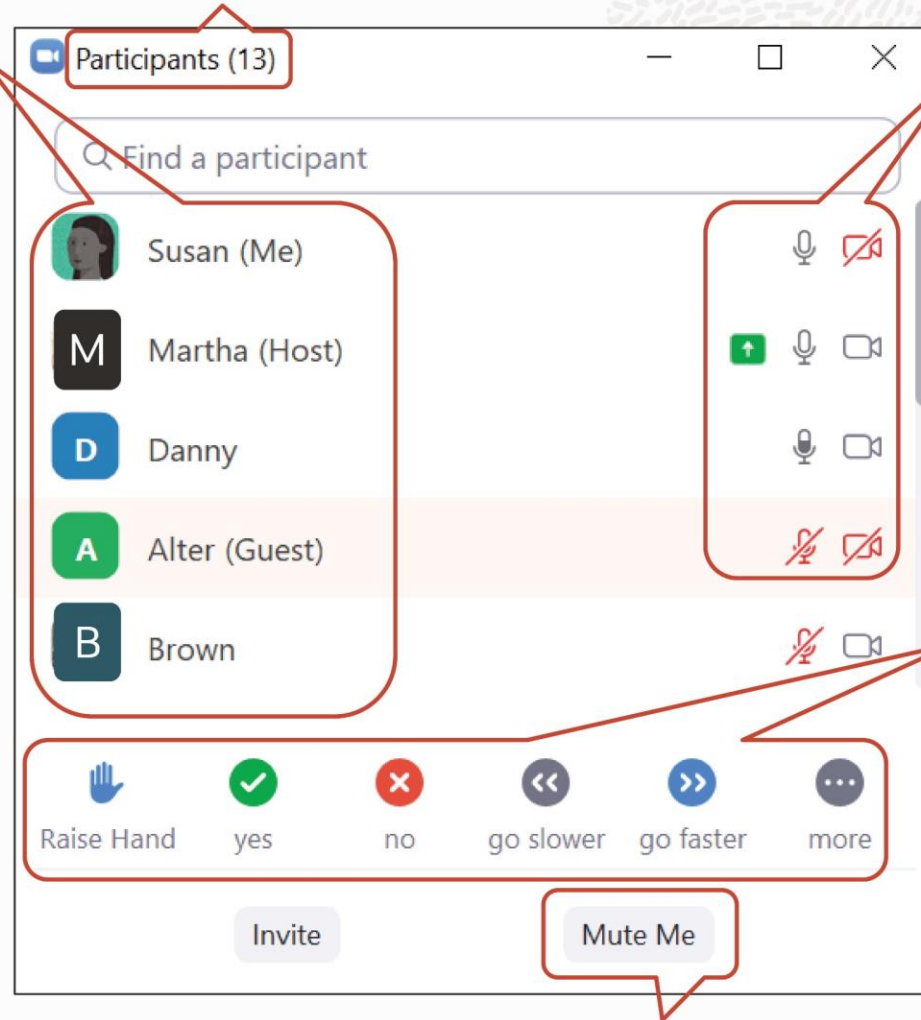

D : No Zoom picture loaded, reflects participant's initials

 : Zoom picture loaded

(Me) : Easily locate self especially when the list is long

When you hover over your name, you can unmute/mute and rename yourself

Indicates total number of participants including the Host

One of the many areas you can Unmute yourself; there is no need to hover over your name to unmute when this button is used

 : Indicates participant sharing screen

 : Indicates participant unmuted but not speaking

 : Indicates participant speaking

NOTE: The speaker will display towards the top of the list regardless of where he/she is sequenced on the Participant Panel

 : Indicates participant is muted

 : Indicates participant's camera is off

 : Indicates participant's camera is on

The following tools are helpful to express your non-verbal response

 : Raise your hand to raise your question

 : To respond to question/statement with YES

 : To respond to question/statement with NO

 : To let the Host know to go slower with the pace

 : To let the Host know to go faster with the pace

 : More options that enables you to indicate...

Thumbs Down, Thumbs Up, Applause, On Break, Away from computer

Polls

The screenshot shows a window titled 'Polls' with a green header bar labeled 'Recap'. Below the header, the question '1. What PMS have you used before? (Multiple choice)' is displayed. There are five options, each with an unchecked checkbox: OPERA V5, OPERA V4, OPERA Cloud, RMS, and Clarity. At the bottom of the window is a grey bar with a 'Submit' button.

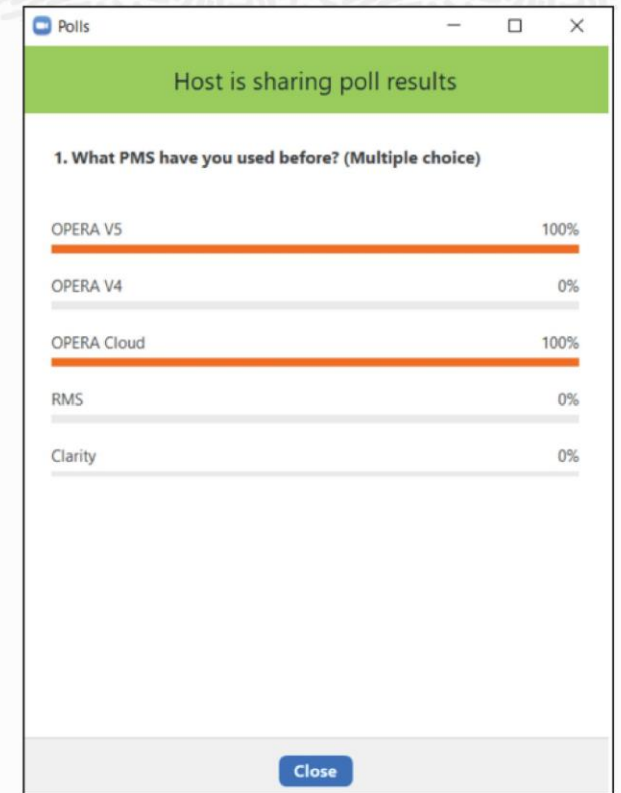

Option	Selected
OPERA V5	<input type="checkbox"/>
OPERA V4	<input type="checkbox"/>
OPERA Cloud	<input type="checkbox"/>
RMS	<input type="checkbox"/>
Clarity	<input type="checkbox"/>

Poll Launched

- The host may launch questions for lesson review or to gather feedback on the session
- Answer the questions (you may need to scroll down for more questions)
- The poll may be anonymous
- Click Submit at the bottom

Poll Results

- When all submissions are received, the host may choose to share the results
- Once you have viewed all the results, click Close to exit

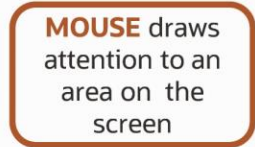

The screenshot shows a window titled 'Polls' with a green header bar labeled 'Host is sharing poll results'. Below the header, the question '1. What PMS have you used before? (Multiple choice)' is displayed. The results are shown as horizontal bars with percentages: OPERA V5 (100%), OPERA V4 (0%), OPERA Cloud (100%), RMS (0%), and Clarity (0%). At the bottom of the window is a grey bar with a 'Close' button.

Option	Percentage
OPERA V5	100%
OPERA V4	0%
OPERA Cloud	100%
RMS	0%
Clarity	0%

Breakout Room and Whiteboard

During the session, you may be sent to a smaller group for discussions
The Breakout Room is used to provide space and privacy. The Whiteboard can be used with Annotate tools, to note the discussion input

When sent to your Breakout Room

In the Breakout Room

Share Screen to enable Whiteboard

The Whiteboard can be used to assist with discussions, Annotate tools can be used here.

If you decide to leave the Breakout Room, this takes you back to the Main Session

For internet, video and audio stability and quality Recommendations

- Use a wired vs. wireless internet connection
- Use computer webcam
- Use computer audio vs phone
- Use a headset
- Close out other applications

Test Your Zoom Connection

Test Before Scheduled Session

- Go to: zoom.us/test
 - This option allows you test your audio and video
 - Once you have launched the test meeting, you will be taken through the steps to test your speaker and microphone.
 - Ensure your computer is not muted and the volume is turned up.
 - Click on the Start Video to test your video.
