ironmikeborsh@yahoo.com or info@mikescreativeiron.com
3735 Fairesta St. La Crescenta, CA 91214

Summary

Mike Borsh started his career in welding/fabrication in the Aerospace Industry in 1984. Two years later he expanded his creative talent into the entertainment construction and special effects industry. For over 20 years, Mike has worked on and led projects for Universal Pictures/Studios, Disney, Paramount and Warner Brothers among others, Mike has also worked on a variety of music videos, commercials, movies and theme park construction - from small mini special effects structures to set fixtures and designs to "big steel" props and projects. Mike offers a strong work ethic and desire to build and create the best and most brilliant steel and metal structures and images.
