

## COST OF ATTENDANCE

Estimated Cost of Attendance (COA). The COA is an estimate of school-related expenses that a student can expect to have while enrolled in the dental hygiene program. The COA components are determined by law and include tuition, fees, and textbooks (Direct Costs); room and board, transportation costs, personal expenses, medical expenses, etc. (Indirect Costs). Because certain expenses are estimated figures (based on student surveys and research), a student's actual costs may differ.

\*The Cost of Attendance (COA) is an estimate of school-related expenses the student can expect to have for the academic year. All costs are subject to change without notice and may be subject to an annual increase. The total COA is based on estimated figures and may not accurately reflect an individual student's costs.

\*\*NOTE: Federal educational loan fees can vary due to Congressional action; professional licensing fees can vary from state-to-state. Certain COA components were taken from a Student Survey conducted in 2017, and include the Consumer Price Index increase for 2018 (1.9% CPI applied to R/B, Transportation, Medical, and Personal Expenses). Because the COA is based on estimated figures, please use this information to estimate what your costs may be. The combination of the Direct and Indirect Costs will be used to determine financial aid. A student may receive federal student aid, scholarships, and other aid up to the COA.
